# SAFETY DATA SHEET

Fantastic Sam's Fantastic Repair Color Protect Conditioning Masque

1/9

### Section 1. Identification

Product Name	: Fantastic Sam's Fantastic Repair Color Protect Conditioning Masque
Other means of identification	: Not available.
Recommended use	: Hair Care Product
<b>Restrictions on use</b>	: Use only as directed on the product label.
Manufacturer	: Zotos International, INC 100 Tokeneke Road, Darien, CT 06820 www.zotos.com
Validation date	: 7/12/2016
In case of emergency	: (800) 584-8038 [24 Hours]
<u>Telephone number</u>	: (203) 656-7859 [8:30 a.m 5:00 p.m.]
Transportation Emergency	: Contact: CHEMTREC 1-800-424-9300 [US/Canada 24 Hours]
Product type	: Liquid.

### Section 2. Hazards identification

#### **Emergency overview**

UCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED ARE FOLLOWED.
: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
: Not classified.
Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 91.5%
: No signal word.
: No known significant effects or critical hazards.
: Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
: Not applicable.
: None known.

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Name	%	CAS number
hexadecan-1-ol	3.00	36653-82-4
Octadecan-1-ol, ethoxylated	1.50	9005-00-9

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

# Description of necessary first aid measures Eye contact : In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. May cause eye irritation. Inhalation : Move affected person to fresh air.

- Skin contact: Prolonged or repeated contact with skin or mucous membrane may result in irritation<br/>symptoms, such as redness, blistering, dermatitis etc. Discontinue use of product<br/>Apply cold compresses to affected areas to relieve any discomfort Seek medical<br/>attention if irritation persists.
- Ingestion : Have conscious person drink several glasses of water or milk. Do not induce vomiting. Get medical attention if adverse health effects persist or are severe.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

### Section 5. Fire-fighting measures

Extinguishing media					
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.				
Unsuitable extinguishing media	: None known.				
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.				
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides halogenated compounds				
Special protective actions for fire-fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> </ul>				
Special protective equipment for fire-fighters					
	8940				
Date of issue/Date of revision	: 7/12/2016 Date of previous issue : No previous validation Version : 0.01 2/9				

### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate person protective equipment.	
For emergency responders	If specialised clothing is required to deal with the spillage, take note of any information Section 8 on suitable and unsuitable materials. See also the information in "For emergency personnel".	
Environmental precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways, dra and sewers. Inform the relevant authorities if the product has caused environmen pollution (sewers, waterways, soil or air).	
Methods and materials for co	inment and cleaning up	
Small spill	Stop leak if without risk. Dilute with water and mop up if water-soluble.	
Large spill	Stop leak if without risk. Contain and collect spillage with non-combustible, absort material e.g. sand, earth, vermiculite or diatomaceous earth and place in containe disposal according to local regulations (see Section 13). Note: see Section 1 for emergency contact information and Section 13 for waste disposal.	

## Section 7. Handling and storage

Precautions for safe handling	g	
Protective measures	:	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink.

### Section 8. Exposure controls/personal protection

#### **United States**

Control parameters

#### **Occupational exposure limits**

None.

Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual protection measures

### Section 8. Exposure controls/personal protection

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to renove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worm, unless the assessment indicates a higher degree of protection: safety glasses with side- shields.Skin protection: Wear suitable gloves.Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.Other skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.Respiratory protection: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. <th></th> <th></th>

# Section 9. Physical and chemical properties

Appearance	
Physical state	: Liquid. [Viscous liquid.]
Color	: Clear. Colorless.
Odor	: Characteristic.
рН	: 6.5 to 7.5
Boiling point	: >100°C (>212°F)
Flash point	: Closed cup: Not applicable.
Relative density	: 1 to 1.15

### Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.

### Section 10. Stability and reactivity

Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

### Section 11. Toxicological information

#### **United States**

#### Information on toxicological effects

#### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
hexadecan-1-ol	LD50 Oral	Rat	5 g/kg	-

#### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
hexadecan-1-ol	Eyes - Mild irritant	Rabbit	-	82 milligrams	-
	Skin - Mild irritant	Guinea pig	-	100 Percent	-
	Skin - Moderate irritant	Guinea pig	-	24 hours 100 milligrams	-
	Skin - Mild irritant	Human	-	72 hours 75 milligrams Intermittent	-
	Skin - Severe irritant	Human	-	0.2 Percent	-
	Skin - Mild irritant	Man	-	48 hours 50 milligrams	-
	Skin - Severe irritant	Rat	-	24 hours 100 milligrams	-
	Skin - Mild irritant	Rabbit	-	24 hours 2600 milligrams	-
	Skin - Severe irritant	Rabbit	-	24 hours 100 milligrams	-
Octadecan-1-ol, ethoxylated	Skin - Moderate irritant	Man	-	48 hours 20 Percent	-

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### Reproductive toxicity

Not available.

#### **Teratogenicity**

Not available.

#### <u>Specific target organ toxicity (single exposure)</u> Not available.

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

8940

### Section 11. Toxicological information

Information on the likely routes of exposure

: Not available.

routes of exposure					
Potential acute health effects					
Eye contact	No known significant effects or critical hazards.				
Inhalation	No known significant effects or critical hazards.				
Skin contact	No known significant effects or critical hazards.				
Ingestion	No known significant effects or critical hazards.				
Symptoms related to the phy	cal, chemical and toxicological characteristics				
Eye contact	No specific data.				
Inhalation	: No specific data.				
Skin contact	No specific data.				
Ingestion	No specific data.				
Delayed and immediate effect	and also chronic effects from short and long term exposure				
<u>Short term exposure</u>					
Potential immediate effects	Not available.				
Potential delayed effects	Not available.				
Long term exposure					
Potential immediate effects	: Not available.				
Potential delayed effects	Not available.				
Potential chronic health eff	is a second s

General	No known significant effects or critical hazards.				
Carcinogenicity	No known significant effects or critical hazards.				
Mutagenicity	No known significant effects or critical hazards.				
Teratogenicity	No known significant effects or critical hazards.				
<b>Developmental effects</b>					
Fertility effects	No known significant effects or critical hazards.				
Numerical measures of toxic					
Acute toxicity estimates					
Route	ATE value				
Oral	14092.9 mg/kg				

### Section 12. Ecological information

<b>United States</b>
<b>Toxicity</b>

Not available.

#### Persistence and degradability

Not available. <u>Bioaccumulative potential</u> Not available.

### Mobility in soil

6/9

### Section 12. Ecological information

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

#### Section 13. Disposal considerations

**Disposal methods** 

: Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
