PRODUCT AND COMPANY IDENTIFICATION

Product Name

Cod. CR100	BACO COLOREFRESH ICE BLONDE
CR101	BACO COLOREFRESH BLACKBERRY VIOLET
CR102	BACO COLOREFRESH SUNFLOWER BLONDE
CR103	BACO COLOREFRESH ORANGE COPPER
CR104	BACO COLOREFRESH POMEGRANATE RED
CR105	BACO COLOREFRESH WALNUT BROWN

Product Description

COLOREFRESH is made up of 6 colored conditioners to choose from, according to your hair type and the desired color or tone. In addition to renewing and replenishing your color, it conditions the hair with active concentrated nutrients featured in the different formulations. Rice Proteins, consisting of Vitamin D, Calcium, Fibres, Iron, Potassium, Zinc and Magnesium, work in synergy with other active ingredients in the conditioner, creating a cocktail of well-being for the hair. The COLOREFRESH range, closes the cuticle layer, keeping the color vibrant and the hair constantly shiny.

N.B. The description and functionalities of the active ingredients have been taken from the scientific documentation provided by their manufacturers.

COMPOSITION/INFORMATION ON INGREDIENTS

The compositions indicated correspond to the frame formulations for the category of products, as defined within Europe by an expert group composed of representatives from poison centres, competent authorities, industry trade associations and the Commission's services

The frame formulations indicate the types of ingredients and their maximum concentrations, to enable rapid identification of the products. The full list of ingredients is printed on the packaging of the individual products in accordance with the provisions of Article 19 of Regulation (EC) 1223/2009.

<u>Ingredients</u>	<u>Maximum levels (% w/w)</u>
Ethanol and/or isopropanol (<i>alcohol</i> , alcohol denat., <i>isopropyl alcohol</i>)	50
Oils (e.g. vegetable and/or mineral), waxes and fats (e.g. long chain alcohols)	20
Emulsifying agents (e.g. <i>laureth</i>)	11
Silicones including volatile silicones (<i>cyclopentasiloxane</i> , <i>dimethicone</i> , <i>amodimethicone</i>)	10
Anionic / non-ionic / amphoteric surfactants (e.g. ether of <i>oleyl alcohol</i>)	10
Hair dyeing agents : Direct dyes (e.g. HC red no.3, <i>4-amino-3-nitrophenol</i> , <i>3-nitro-p-hydroxyethylaminophenol</i>)	10
Solvents (e.g. <i>propylene glycol</i> , <i>benzyl alcohol</i>)	10
Cationic surfactants (e.g. <i>dicetyldimonium chloride</i>)	5
Additional ingredients (e.g. plant extracts, protein derivatives)	5
Hair conditioning agents (e.g. cationic polymers)	5
Resins (e.g. acrylates copolymer)	3
Thickeners (e.g. <i>cellulose derivatives</i>)	2
<i>Parfum</i>	1
Preservatives, antimicrobials	1
pH adjuster: (e.g. <i>citric acid</i>) or alkaline (e.g. <i>ethanolamine</i> , <i>sodium hydroxide</i> , <i>ammonium hydroxide</i>)	qs pH 2 - 10
<i>Aqua</i>	to 100

HAZARD IDENTIFICATION

When used in accordance with the manufacturer's instructions, the product is safe for humans and the environment, in compliance with Regulation (EC) 1272/2008 (CLP).

The product is not considered dangerous pursuant to Directives 67/548/CEE, 99/45/CEE and subsequent amendments and additions.

The directions for use and warnings are indicated on the products.

Wash the hair with shampoo. Pat dry thoroughly with a towel. Spread the product evenly along the length ends. Use a comb if it helps. Leave for 5 and 20 minutes, depending on the required intensity of the shine. Rinse thoroughly and the dry. Do not shampoo again.

Product for professional use.

Keep out of reach of children.

FIRST AID MEASURES

Contact with the eyes: remove contact lenses if present and rinse carefully with plenty of water; if irritation persists, seek medical advice.

Ingestion: if swallowed, contact the nearest Poison Centre or seek medical advice.

Contact with the skin: rinse skin immediately with plenty of water: if irritation persists, seek medical advice.

Inhalation: move the casualty outside, place them in a comfortable position where they can rest and breathe easily; if irritation of the upper respiratory tract persists, contact the nearest Poison Centre or seek medical advice.

FIRE-FIGHTING MEASURES

In the event of fire, use water mist, chemical powder, carbon dioxide.

ACCIDENTAL RELEASE MEASURES

Collect the spilled product with sand, sawdust or cloths and transfer to suitable containers for disposal according to regulations. Wash contaminated areas with plenty of water. Never return the spilled product to the original container. Never reuse the spilled product.

HANDLING AND STORAGE

Handling

- Always follow the instructions on the packaging or on the accompanying leaflet, ring or collar.
- Do not use the product for any purpose other than the ones described in the instructions.
- Avoid mixing with other products or similar products or with different substances which are not indicated in the specific instructions.
- Never return the spilled product to the original container for reuse.
- Disposable gloves are recommended.
- Do not use on eyelashes and eyebrow.
- Contains pigments.
- May cause allergic reaction reactions. It is advisable to perform a sensitivity or patch test before using.
- Avoid direct contact with the eyes.
- Keep out of the reach of children.
- Keep away from direct light and warm sources.

Continuous exposure to cleaning agents (soap, shampoo, liquid detergents) for professional reasons may deplete the hydrolipidic film and horny layer which form the skin's natural barrier. The depletion of this barrier may result in lesions of the skin, which is then more exposed to external agents.

In such conditions, handling other products normally used during professional activities without the necessary precautions (e.g. gloves or specific PPE), may cause intolerance which, in the long term, may lead to more severe forms.

Storage

Store in dry, well-ventilated areas (room temperature).

Do not store or use the product in the vicinity of open flames, heat sources, electrical equipment or direct sunlight.

Close containers well after use.

OCCUPATIONAL EXPOSURE CONTROLS

Respiratory protection: not needed for normal use. Avoid inhalation.

Hand protection: disposable gloves are recommended.

Eye protection: not needed for normal use. Avoid contact.

Skin protection: use aprons, normal protective clothing.

ENVIRONMENTAL EXPOSURE CONTROLS

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Cream
Colour:	Characteristic
Odour:	Floral and oriental notes
pH:	4.00 - 5.00

STABILITY AND REACTIVITY

The product is stable at room temperature.

DISPOSAL CONSIDERATIONS

Observe all local and state environmental regulations. Keep the product separated from other materials and dispose it chemically

REGULATORY INFORMATION

Regulated as Cosmetic Directive EU (Regulation (EC) No1223/2009/EC), Cosmetic and/or Drug under FDA (US), HPB (Canada). This product is safe to use as directed on the package.

ADDITIONAL INFORMATION

The information contained herein is based on the present state of our knowledge. All the information on this data sheet concerning the composition and chemical and physical properties, is provided exclusively for the handling and correct use of the product and for any emergency action. This information does not include the complete composition of the product (indicated on the packaging) nor does it represent any specifications for sales purposes.
