COMPOSITION/INFORMATION ON INGREDIENTS

The compositions indicated correspond to the frame formulations for the category of products, as defined within Europe by an expert group composed of representatives from poison centres, competent authorities, industry trade associations and the Commission's services

The frame formulations indicate the types of ingredients and their maximum concentrations, to enable rapid identification of the products. The full list of ingredients is printed on the packaging of the individual products in accordance with the provisions of Article 19 of Regulation (EC) 1223/2009.

<u>Ingredients</u>	<u>Maximum levels (% w/w)</u>
Ethanol (<i>alcohol</i> , alcohol denat.)	30
Propellants (e.g. hydrocarbons, <i>dimethyl ether</i> , compressed gas)	30
Oils (e.g. vegetable and/or mineral), waxes and fats (e.g. long chain alcohols)	25
Silicones including volatile silicones (e.g. <i>cyclopentasiloxane</i> , <i>dimethicone</i> , <i>amodimethicone</i>), silanes (e.g. alcoxysilanes)	25
Film forming agents, polymers, resins (e.g. <i>polyvinyl acetate</i> , <i>PVP</i> , <i>polyquaternium-4</i>) and neutralising agent (e.g. <i>aminomethyl propanol</i>)	20
Humectants (e.g. <i>glycerin</i>)	10
Polyglycol ethers	5
Cationic surfactants (e.g. <i>cetrimonium chloride</i>)	5
Non-ionic surfactants (e.g. <i>oleth-20</i>)	5
Hair texturizing agents (e.g. <i>kaolin</i> , starch)	3
Additional ingredients (e.g. UV filters, vitamins)	3
Plasticisers (e.g. <i>triacetin</i>)	2
Preservatives, antimicrobials	2
Colorants	1
<i>Parfum</i>	1
<i>Aqua</i>	to 100

HAZARD IDENTIFICATION

When used in accordance with the manufacturer's instructions, the product is safe for humans and the environment, in compliance with Regulation (EC) 1272/2008 (CLP).

The product is classified as dangerous pursuant to Directives 67/548/CEE, 99/45/CEE and subsequent amendments and additions.

Labelling of dangerous substances pursuant to Directives 67/548/CEE, 99/45/CEE and subsequent amendments and additions.

WARNING

Warnings:

The directions for use are indicated on the products.

Product for professional use.

Flammable aerosol.

Pressurized container: may burst if heated.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Do not smoke.

Do not pierce or burn, even when empty.

Protect from sunlight. Do not expose to temperatures above 50°C (122°F).

Do not spray on an open flame or other ignition source.

The repeated inhalation of vapors can cause drowsiness and giddiness.

The aerosol containers overheated burst and can be ejected with violence from a distance and can take place a dangerous mechanism for the fire.

Keep out of reach of children.

FIRST AID MEASURES

Direct contact with eyes (of the pure product): remove contact lenses if present; Wash immediately and thoroughly with running water for at least 10 minutes. If irritation persists, seek medical advice.

Ingestion: Not hazardous. It's possible to give activated charcoal in water or liquid paraffin medicine. If you feel unwell seek medical advice.

Direct contact with skin (of the pure product): Wash thoroughly with soap and running water, if irritation persists, seek medical advice.

Inhalation: Air the area. Move immediately the contaminated patient from the area and keep him at rest in a well ventilated area. If you feel unwell seek medical advice.

FIRE-FIGHTING MEASURES

In the event of fire, use water mist, chemical powder, carbon dioxide.

If heated up, aerosol containers may deform, burst or be propelled a considerable distance and can take place a dangerous mechanism for the fire.

Wear a protective helmet before approaching a fire. Cool containers with water spray trying to remove them from the fire. Avoid breathing products of combustion.

ACCIDENTAL RELEASE MEASURES

Given the tightness of aerosol, it is unlikely that the spillage may occur. However if some container is damaged likely to cause a loss, insulate the tank in question by bringing it to open air or covering it with inert material and fuel (eg sand, earth, vermiculite) and having the care to avoid any point of ignition that might pose a serious risk of fire. Collect the spilled product with sand, sawdust or cloths and transfer to suitable containers for disposal according to regulations. In the event of massive spillage, alert the Fire Brigade.

Wear gloves and protective clothing.

Eliminate all unguarded flames and possible sources of ignition. No smoking. Provision of sufficient ventilation. Avoid contact with the skin, eyes and clothing. In the event of contact, wash with water. Wash contaminated areas with plenty of water. Never return the spilled product to the original container. Never reuse the spilled product.

HANDLING AND STORAGE

Handling

- Pressurized container: may burst if heated.
- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
- Do not pierce or burn, even when empty.
- Always follow the instructions on the packaging or on the accompanying leaflet, ring or collar.
- Do not use the product for any purpose other than the ones described in the instructions.
- Avoid mixing with other products or similar products or with different substances which are not indicated in the specific instructions.
- Never return the spilled product to the original container for reuse.
- The repeated inhalation of vapors can cause drowsiness and giddiness.
- Keep out of the reach of children.

Continuous exposure to cleaning agents (soap, shampoo, liquid detergents) for professional reasons may deplete the hydrolipidic film and horny layer which form the skin's natural barrier. The depletion of this barrier may result in lesions of the skin, which is then more exposed to external agents.

In such conditions, handling other products normally used during professional activities without the necessary precautions (e.g. gloves or specific PPE), may cause intolerance which, in the long term, may lead to more severe forms.

Storage

Keep in original container closed tightly. Do not store in open or unlabeled containers. Keep containers upright and safe by avoiding the possibility of falls or collisions. Pressurized container. Store in dry, well-ventilated areas (room temperature).

Do not store or use the product in the vicinity of open flames, heat sources, electrical equipment or direct sunlight. Close containers well after use.

OCCUPATIONAL EXPOSURE CONTROLS

Respiratory protection: not needed for normal use. Avoid inhalation.

Hand protection: not needed for normal use.

Eye protection: not needed for normal use. Avoid contact.

Skin protection: use aprons, normal protective clothing.

ENVIRONMENTAL EXPOSURE CONTROLS

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Liquid under pressure

Colour: Violet

Odour: Characteristic

pH: 4.0 - 5.0

STABILITY AND REACTIVITY

The product is stable at room temperature.

DISPOSAL CONSIDERATIONS

Observe all local and state environmental regulations. Keep the product separated from other materials and dispose it chemically

REGULATORY INFORMATION

Regulated as Cosmetic Directive EU (Regulation (EC) No1223/2009/EC), Cosmetic and/or Drug under FDA (US), HPB (Canada). This product is safe to use as directed on the package.

TRANSPORT INFORMATION

UN number

ADR/RID/IMDG/ICAO-IATA: 1950

ADR exemption because compliance with the following characteristics:

Combination packagings: per inner packaging 1 L per package 30 Kg

Inner packagings placed in shrink-wrapped or stretch-wrapped trays: per inner packaging 1 L per package 20 Kg

UN proper shipping name

ADR/RID/IMDG: AEROSOL flammable

ICAO-IATA: AEROSOL flammable

Transport hazard class(es)

ADR/RID/IMDG/ICAO-IATA: Class: 2

ADR/RID/IMDG/ICAO-IATA: Label: Limited quantities

ADR: Tunnel restriction code: D

ADR/RID/IMDG/ICAO-IATA: Limited quantities: 1 L

IMDG - EmS: F-D, S-U

Packaging group

ADR/RID/IMDG/ICAO-IATA: --

Environmental hazards

ADR/RID/ICAO-IATA: Product is not environmentally hazardous

IMDG: Marine polluting agent: Not

Special precautions for users

The transport must be carried out by authorized vehicles for the transport of dangerous goods in accordance with the requirements of the applicable Edition of the agreement A.D.R. and national provisions.

The transport must be carried out in the original packaging and in packages that are made from materials resistant to content and not likely to generate with this dangerous reactions. The process of loading and unloading of dangerous goods have received adequate training on the risks presented by prepared and on possible procedures to be taken in the event of emergency situations

ADDITIONAL INFORMATION

The information contained herein is based on the present state of our knowledge. All the information on this data sheet concerning the composition and chemical and physical properties, is provided exclusively for the handling and correct use of the product and for any emergency action. This information does not include the complete composition of the product (indicated on the packaging) nor does it represent any specifications for sales purposes.
